# 1. INTRODUCTION

The brand new dog Starshiba Inu (STARSHIB) is a memecoin depicted by a Shiba Inu in the colors of SpaceX (i.e Starship). This one wears a crown from the Starship super-heavy space launcher designed for many future major space missions.

We can describe Starshiba Inu as the quintessential union of these two giants, with on the one hand Starship and on the other by the master dog of memecoins, the Shiba Inu, also symbol of Dogecoin.

Our goal is big with a long term aim and we hope to be mentioned in the future by Elon Musk.

## 2. MOTIVATIONS

The entire team is fully committed and motivated to support STARSHIB towards success. For this we foresee semi-organic growth guided by fairly strong marketing.

We all believe in the success of Starshiba Inu and we have made a promise to make this memecoin unique.
